

INTERNATIONAL DAY AGAINST DRUG ABUSE

The students union observed the 'International day for prevention of drug abuse' as a break time event on 26 June for both Shifts 1 and 2. The dramatics club presented a short skit in order to spread awareness about the same. Students present at the session were also told about the ill effects of the use of drugs on their mental and physical health. In order to mark the allegiance of the students in this campaign to prevent the abuse of drugs, they were asked to take an oath to abstain from drugs by signing a banner. Posters spreading awareness on the effects of drug abuse were also hung at the venue of the presentation. Students found it to be a moving and thought- provoking session.
