

MOVIE NIGHT

Stella Maris College experienced its first ever movie night on 22 November 2017.

The Students' Union organized the screening of the movie 'Aramm', a new Tamil movie which is structured as a tense thriller about a rescue attempt and how it becomes a huge professional and personal challenge for a collector. The entire absorbing first half leads to that one powerful sequence, lasting the entire length of the film, that pretty much tells the tale of India itself – powerful politicians, policemen and doctors on one side, and a family who's struggling to cope with the unfortunate circumstances after their young daughter falls into the well.

The Students' Union found it appropriate to screen such a movie with a good social theme as it falls in line with our theme LEAD. Management, faculty members and students thoroughly enjoyed the show.
